EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Replace the Title of the Invention with the following: "SYSTEM AND METHOD FOR CREATING LOGICAL PAIRS OF STORAGE DEVICES IN A MULTIPROCESSOR ENVIRONMENT".
- Cancel claim 13.

REASONS FOR ALLOWANCE

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-12 and 14-17, drawn to a host processor plus a first processing unit plus a second processing unit plus a cache memory for linking storage units, classified in class 711, subclass 148, with further search in class 709, subclasses 213, 214 and 216.
 - II. Claim 13, drawn to plural shared storage devices, classified in class 711, subclass 148.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as use without a "first processing unit" or a "second processing unit" or a cache memory. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

In response to a voicemail left by the examiner on August 19, 2005, Chun-Pok Leung (#41,405) left a return voicemail on August 21, 2005, wherein a provisional election was made without traverse to prosecute the invention of Group I, claims 1-12 and 14-17. Affirmation of this election must be made by applicant in replying to this Office action. Claim 13 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant's remarks from the petition filed on January 21, 2005 concerning the features of the claims have been carefully reviewed by the examiner and, with regard to claims 1-12 and 14-17, are deemed convincing. Claim 13 has been cancelled as being directed to an invention non-elected without traverse.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Peikari whose telephone number is (571) 272-4185. The examiner is generally available between 7:00 am and 7:30 pm, EST, Monday through Wednesday, and between 5:30 am and 4:00 pm on Thursday.
